Type B – Chemically Treated and Resin Impregnated Fei Cui

Refers to Fei Cui which has been chemically treated and resin impregnated.

Type C – Dyed Fei Cui

Refers to Fei Cui which has been treated with dye.

Type B+C – Chemically Treated, Resin Impregnated and Dyed Fei Cui

Refers to Fei Cui which has been chemically treated, resin impregnated and dyed.

Trade Descriptions (Definition of Fei Cui and Natural Fei Cui) Regulation The Customs and Excise Department

Chapter 362K Gazette Number: L.N. 265 of 2008 Version Date: 02/03/2009

Definition of “fei cui” (Section: 2)

The expression “fei cui” or “翡翠”, when used in the course of any trade or business to describe an article, means the article is a granular to fibrous polycrystalline aggregate which is composed solely or principally of any of the following or any combination of the following: (a) jadeite; (b) omphacite; (c) kosmochlor.

Definition of “natural” when used to describe fei cui (Section: 3)

The expression “natural” or “天然”, when used in the course of any trade or business to describe fei cui within the meaning of section 2, means the fei cui: (a) has not been subjected to any treatment or process which altered its crystalline structure; and (b) has not been subjected to any treatment or process which altered its original colour.
